

Vibration Institute

OFFICERS 2011-2012

Chairman

Joe Jank
Empire Instruments, LLC
(716) 574-8864

Vice – Chairman

Mike Nero
IMI Division of PCB
(716) 684-0003

Program Chairman

Gene Bradbury
Praxair Incorporated
(716) 879-7049

Secretary

Douglas Moon
Praxair Incorporated
(716) 286-4668

Treasurer

Paul G. Kaczmarek
E. I. DuPont
(716) 879-1772

Past Chairman

George Jowdy – Praxair

Committee

Carl Schwartz
Praxair

Terry McCarville
IMI Sensors

John Sperrazza
IMI Sensors

November 17, 2011

Speaker / Topic:

Infrared Windows. Understanding the technology, the application, and the business case.

Presented by **Martin Robinson**, CMRP, founder and CEO of IRISS, and a Level III thermographer.

For over 30 years, Martin Robinson has been a pioneer in the field of maintenance technology. He spent 18 years in the British Army specializing in field maintenance of combat fleet vehicles. Upon leaving the military, he established a commercial thermography service business called Global Maintenance Technologies (GMTech), and also began working on advancing IR window technology.

In 2001, he split the products from the services of GM Tech and moved the specialty manufacturing of the IRISS line of products to the US, and in 2007, incorporated IRISS, Inc. in Sarasota, Florida.

His patents and designs include the world's only industrial-grade infrared windows capable of passing IEEE durability and impact requirements; the first ultrasound ports; an emissivity standardization label system; and the world's only transmissive PDU panels.

Mr. Robinson continues to be an innovator and pioneer the technological benefits of Infrared Thermography internationally. He has met with, consulted, or advised international maintenance and reliability leaders on electrical preventive maintenance and electrical safety standards of NFPA and OSHA. He has also designed CBM programs to include IR, Non-destructive Testing (NDT) and implementation of green energy initiatives and energy management strategies.

Meeting Location: Holiday Inn Niagara Falls Blvd. near the 290 Expressway

Time: Thursday; November 17, 2011 Social Hour from 6:00 to 7:00

Menu: Hors'douvers followed with a Family Style Dinner served at 7:00 PM

Cost: \$5.00 per person – VI Members
\$10.00 per person – Non-VI Members

Meeting Support: I & E Central- Bob Dunn-

I&E Central is a sales and solutions firm, specializing in predictive maintenance (PdM), electrical test and calibration equipment for industrial applications. They are dedicated to providing PdM, electrical and maintenance professionals with a reliable source of information and top-quality products. Visit <http://www.ie-central.com/> for additional details, or contact Bob Dunn at (866) 225-0182.
